Homeschooling-Expense Information

When identifying reimbursable expenses, the general principle to follow is that expenses that are normally included in traditional private school tuition are reimbursable. Expenses that are usually paid for separately and on top of traditional private school tuition, are not reimbursable—neither are major resources that are usually shared by many teachers and students, rather than just one or a few. Please review the Table below for examples of reimbursable and non-reimbursable expenses. Remember, the cumulative amount over the course of the academic year cannot exceed \$500 per child.

<u>ACCEPTABLE</u>	<u>UNACCEPTABLE</u>
